LANGUAGES

- Spanish (Native)
- English
 - C1 in 2016
 - Year abroad in USA 2013-14

TECHNICAL SKILLS

- **Backend:** Node.js, Express, MongoDB, MySQL, REST APIs
- **Frontend:** React, Next.js, React Native
- **DevOps:** AWS (EC2, S3), Netlify, Heroku, GitHub Actions
- **Testing:** Jest, Mocha, Selenium
- **AI/Automation:** MCP integrations, skill design, OpenAI APIs
- **Observability:** OpenTelemetry, Grafana, Prometheus, Loki, Jaeger
- **Databases:** PostgreSQL, MongoDB

EXPERIENCE

FULL STACK ENGINEER

Mutuactivos - Grupo Mutua Madrileña

Jan 2026 - Present

- Developing internal platforms for financial portfolio management with FastAPI, Pydantic, React, and TanStack Query.
- Building AI workflows that use MCPs and skills to accelerate and standarize development processes in my team.
- Automating engineering and administrative tasks using LLM tooling.
- Contributing to scalable APIs and multi-service architecture.

SOFTWARE ENGINEER INTERN

Bosch Spain - BMG

Sep 2025 - Present

- Worked on an AI-powered translation platform using .NET, Python, Angular, and RabbitMQ.
- Built cross-platform observability libraries with OpenTelemetry (Grafana, Prometheus, Loki, Jaeger).
- Developed CI/CD pipelines in Azure DevOps and Dockerized deployments with Traefik and Portainer.
- Contributed to system architecture, performance optimization, and data persistence with MongoDB.

FULL STACK DEVELOPER

Freelance

Nov 2022 - Present

- Built automation tools to reduce administrative workload for clients.
- Developed AI-assisted workflows and internal productivity systems.
- Delivered full-stack applications used by thousands of monthly users.
- Managed architecture, deployment, and maintenance end-to-end..
